Customer shall immediately inform IM in case of loss of password or in case of any abuse or attempted abuse of Customer password or other Customer Identification. Customer agrees that Customer is entirely responsible for use of Customer's Identification and that it is Customer's responsibility to have in place security measures and procedures to ensure use of its Customer Identification only by authorised personnel for authorised purposes.

Customer agrees to hold in confidence and not to directly or indirectly use, reveal, report, publish, disclose or transfer to any other person or entity any of the Information or utilise the Information for any purpose except as permitted herein. IM makes no warranty, either express or implied on the Information or its accuracy. All Information is provided to Customer "as is." If IM provides Information to Customer by Electronic Means, Customer agrees to update such Information regularly to ensure its accuracy. Specifically but without limitation Customer is not entitled to utilise Information for any purpose other than in the normal course of business of a reseller and is not entitled to use, reproduce or display the Information in any way, which in IM's opinion; (1) would enable it to be identified as information obtained from IM (2) would enable comparison of the Information with other suppliers' information relating to Products or (3) could be damaging to IM's business interests.

4.2 IM agrees to hold in confidence and not to directly or indirectly use, reveal, report, publish, disclose or transfer to any other person or entity any Customer sensitive information or utilise such information for any purpose if Customer has notified IM in writing that such information is confidential. These changes will be duly notified to the Customer. The Customer cannot cancel or reschedule the Contract provided the changes do not alter the material terms of the Contract. For other types of changes, the possibility of cancellation will be subject to IM's discretion and conditions.

5.3 IM is under no obligation to accept the withdrawal of an order or the cancellation of a Contract which has been accepted by IM. If IM agrees to accept the Customer's withdrawal of any order or the cancellation of a Contract such agreement will only be effected by means of letter, fax or email signed or sent by an Authorised Representative of IM.

5.4 Notwithstanding any other terms of these Conditions it is agreed that the provision or display of Services and Product pricing and other Information (as defined in Clause 4.1) by IM to Customer does not amount to an offer by IM to sell Product or supply Services at that price or on any other terms. Supply of such Information is only an invitation to treat. An order by the Customer for Product or Services shall be the offer.

5.5 Notwithstanding any acceptance by IM of Customer's offer to purchase Products or Services, if there for any reason has been a material or obvious pricing error by IM, IM shall be entitled within 30 days of its acceptance of such offer or delivery of the Products or commencement of the Services to either invoice the Customer the true and correct list price (not exceeding the prevailing market price at wholesale level) of the Product or Services at the date of order or, if the Customer shall prefer, upon notice to Customer cancel the order and collect the mispriced Product or cease supplying the Services at IM's expense and credit the Customer for the price paid and any charges (e.g. price and freight) invoiced by IM. IM shall have no obligation to monitor or verify whether the Customer or any orders placed by Customer are the subject to any fraudulent or other criminal activity or attempt by the Customer's customers or any third party.

5.7 IM will set minimum order levels and charge additional fees for any order below such levels. Current minimum order levels can be found on IM's web site <http://uk-new.ingrammicro.com>.

5.8 IM may cancel, and shall be under no obligation to accept or fulfil, an order if Products or Services are in short supply from its suppliers or if the suppliers' prices have increased to such a level that the fulfilment of the order would result in IM selling the Products or Services at a loss or with lower than normal sales margins.

Customer warrants that it will not resell, export or re-export any Products with knowledge that the Products will be used in the design, development, production, or use of chemical, biological, nuclear, or ballistic weapons, or in a facility engaged

in such activities, unless Customer has obtained prior approval from the U.S. Department of Commerce, the EU or the competent EU/EFTA member state's government agency. Customer further warrants that it will not export or re-export, directly or indirectly, any Products to embargoed countries or resell any Products to companies or individuals restricted from purchasing Products including those listed on the Sanctioned Parties List published by the U.S. Department of Commerce and similar lists issued by the EU or EU countries.

Notwithstanding the aforesaid, IM shall have no liability and no duty to assist Customer or its customers with respect to loss and recovery of data in the event IM's or the Service provider's invoices have not been paid or IM or the Service provider terminates the Services due to Customer's or its customers' non-payment of said invoices; any assistance by IM shall be at will and subject to payment of IM's service fees. This clause sets out IM's sole obligations and Customer's exclusive remedies with respect to loss of data.

In order to use this website, a user must first complete the registration form. During registration a user is required to give contact information (such as name and email address). This information may be used to contact the user about the services on our site for which they have expressed interest or that are relevant to their use of the site.

Order

We request information from the user on our order form. Here a user must provide contact information (e.g. name and shipping address) and financial information (e.g. credit card number, expiration date). This information is used for billing purposes and to fulfill customer orders. If we have trouble processing an order, this contact information is used to get in touch with the user.

Please read our full cookie statement.

Log Files

We use IP addresses to analyse trends, administer the site, track user's movement, and gather broad demographic information for aggregate use. IP addresses are not linked to personally identifiable information.

Sharing We may share aggregated demographic information with our partners and advertisers. This is not linked to any personal information that can identify any individual person.

We use an outside shipping company to ship orders and a credit card processing company to bill users for goods and services. These companies do not retain, share, store or use personally identifiable information for any secondary purposes.

We partner with another party to provide specific services. When the user signs up for these services, we will share names, or other contact information that is necessary for the third party to provide these services.

These parties are not authorised by us to use personally identifiable information except for the purpose of providing these services.

Links

Our web site contains links to other sites. Please be aware that we Ingram Micro UK Ltd. are not responsible for the privacy practices of such other sites. We encourage our users to be aware when they leave our site and to read the privacy statements of each and every web site that collects personally identifiable information. This privacy statement applies solely to information collected by our Web site.

Newsletter

If a user wishes to subscribe to our newsletter or regular communication, we ask for contact information such as name, email address and product/category business interests.

Surveys & Contests

From time-to-time our site requests information from users via surveys or contests. Participation in these surveys or contests is completely voluntary and the user has a choice whether or not to disclose this information.

Information requested may include contact information (such as name and shipping address), and demographic information (such as post code). Contact information will be used to notify the winners and award prizes. Survey information will be used for purposes of monitoring or improving the use and satisfaction of this site.

Security

This website takes every precaution to protect our users' information. When users submit sensitive information via the website, your information is protected both online and off-line.

When our registration / order form asks users to enter sensitive information (such as credit card number), that information is encrypted and is protected with the encryption software SSL. While on a secure page, such as our order form, the lock icon on the bottom of Web browsers such as Netscape Navigator and Microsoft Internet Explorer becomes locked, as opposed to unlocked, or open, when you are just 'surfing'.

While we use SSL encryption to protect sensitive information online, we also do everything in our power to protect user-information off-line. All of our users' information, not just the sensitive information mentioned above, is restricted in our offices. Only employees who need the information to perform a specific job (for example, our billing clerk or a customer service representative) are granted access to personally identifiable information. Furthermore, ALL employees are kept up-to-date on our security and privacy practices. Any time new policies are added our employees are notified and/or reminded about the importance we place on privacy, and what they can do to ensure our customers' information is protected. Finally, the servers that we store personally identifiable information on are kept in a secure environment, behind a locked cage.

If you have any questions about the security at our website, you can send an email to webmaster@ingrammicro.co.uk

Supplementation of Information

In order for this website to properly fulfil its obligation to our customers, it is necessary for us to supplement the information we receive with information from 3rd party sources.

In order to improve our ability to tailor the site to an individual's preference, we combine information about the purchasing habits of users with similar information from our partners to create a personalized user profile.

Special Offers

We send all new members a welcoming email to verify password and username. Established members will occasionally receive information on products, services, special deals, and a newsletter. Out of respect for the privacy of our users we present the option to not receive these types of communications. Please see our choice and opt-out below.

Site and Service Updates

We also send users site and service announcement updates. Members are not able to un-subscribe from service announcements, which contain important information about the service. We communicate with the user to provide requested services and in regards to issues relating to their account via email or phone.

Correction/Updating Personal Information

If a user's personally identifiable information changes (such as your post code), or if a user no longer desires our service, we will endeavor to provide a way to correct, update or remove that user's personal data provided to us. This can usually be done at the member information page or by emailing our E-Commerce Support Team.

Choice/Opt-out

Our users are given the opportunity to 'opt-out' of having their information used for purposes not directly related to our site at the point where we ask for the information. For example, our order form has an 'opt-out' mechanism so users who buy a product from us, but don't want any marketing material, can keep their email address off of our lists.

Users who no longer wish to receive our newsletter or promotional materials from our partners may opt-out of receiving these communications by replying with "unsubscribe" in the subject line in the email or email us at webmaster@ingrammicro.co.uk.

Users of our site are always notified when their information is being collected by any outside party. We do this so our users can make an informed choice as to whether they should proceed with services that require an outside party, or not.

Notification of Changes

If we decide to change our privacy policy, we will post those changes on our Homepage so our users are always aware of what information we collect, how we use it, and under what circumstances, if any, we disclose it. If at any point we decide to use personally identifiable information in a manner different from that stated at the time it was collected, we will notify users by way of an email or by post. Users will have a choice as to whether or not we use their information in this different manner. We will use information in accordance with the privacy policy under which the information was collected.
